Subject: FOR YOUR REVIEW-Benzo[a]pyrene ERD draft

Vince and Samantha,
Please find attached the ERD draft and Response to Major Science Comments for benzo[a]pyrene. Both clean and compare (to the public comment draft) redlines are included. The Tox Review is in an "unformatted" version. We are having difficulties with HERO making Word crash so we have "turned HERO off". Following your review we will send the document to TIS for debugging and then check all links. We also need to add HERO links to the preamble, but will wait for your review before we have an SSC work on that task. Also, there are a couple comment bubbles where we would like management to weigh in on text/decisions (i.e., scoping info). I'd like to thank Kathleen, Martin, and Karen for all the hard work. There were an extensive number of comments to comb through. Its a really good Tox Review and we should be proud.
Jamie

Also, the public comments can be found on the share drive at
